MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1) Industry Structure & Developments and Outlook

Indian gems and jewellery sector is expected to grow at a compound annual growth rate (CAGR) of around 16.26 percent till 2016-17 on account of increasing government efforts and incentives coupled with private sector initiatives, according to a report of the working group on 'Boosting India's Manufacturing Exports', by Ministry of Commerce & Industry.

According to a recent study, India and China are now emerging as one of the leaders in the global jewellery industry in terms of consumption, besides production and trade. The countries jointly would account for over 30 percent of global diamond market in 2015.

India has the distinction of being one of the first countries to introduce diamonds to the world. Diamonds manufactured in India constitute 65 percent by value, 85 percent by volume and 92 percent by pieces of the world diamond production, making the country not only the leading global manufacturer but also one of the highest consumers of rough diamonds in the world.

The diamond jewellery market in India stands at approximately 20 percent or Rs.45,000 crore of the whole jewellery market and is growing at the rate of 20 percent in a year.

India possesses world's most competitive gems and jewellery market due to its low cost of production and availability of skilled labor. As per the research report "Indian Gems and Jewellery Market Forecast to 2013", highly skilled and low cost manpower, along with strong Government support in the form of incentives and establishments of SEZs, have been major drivers for the Indian gems and jewellery market. Presently, although, Indian market is highly fragmented, it is rapidly transforming into an organized sector.

Gems and jewellery form an integral part of Indian tradition. A legacy passed from one generation to another. The components of jewellery include not only traditional gold but also diamond & platinum accompanied by a variety of precious and semi-precious stones.

One of the major concerns for the diamond industry is the depreciating value of rupee which has a direct impact on the prices of diamond.

Neogem India Limited is engaged in manufacturing and export of gold studded jewellery. It has a well-equipped manufacturing facility with technically advanced machines to carry out production efficiently. Defined Contribution Plan

	2012 - 2013	2011 - 2012
Employer's Contribution to Provident Fund	219,883	213,263

The Company's Provident Fund is exempted under section 17 of Employees' Provident Fund and Miscellaneous Provisions Act, 1952. Conditions for grant of exemption stipulate that the employer shall make good deficiency, if any, in the interest rate declared by the trust vis-a-vis statutory rate.

Defined Benefit Plan

The employees' gratuity fund scheme managed by a Trust (Life Insurance Corporation of India) is a defined benefit plan. The present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation for leave encashment is recognised in the same manner as gratuity.
